## EXPERIENCE

### Pursuing React Native Training at Besant Technology - September 2023 to Continue

- Pursuing advanced proficiency in Python as part of ongoing professional development at Besant Technology. Actively engaged in hands-on projects and collaborating with experienced developers to apply these skills in real-world applications, further enhancing my full-stack development expertise. Committed to staying at the forefront of industry best practices and continuously expanding my knowledge in these technologies to contribute to the company's success.

### React Developer at Flyweis Technology – August 2023 to September 2023 - <https://www.flyweis.technology/>

- Implemented dynamic and responsive data tables in web applications using React table components.
- Conducted CRUD operations and data fetching via API requests with tools like Postman.
- Efficiently exchanged data with third-party services through various API operations.

### QC Associate at DSG-US – 2022-March to 2023 -May - <http://dsg-us.com/index.html>

- Conducted unit tests for React components using Jest and React Testing Library.
  - Created dynamic and interactive components using React.js to enhance the clinical trial software user experience.
  - Performed integration tests to ensure the front end properly communicated with external APIs.
  - Used browser developer tools to inspect elements for alignment issues.
  - Conducted visual inspections to identify and correct misalignments in text, images, and layout components.
